Outline

- No copyright assignment.

Why Fedoraproject?

- No copyright assignment.
- Work closely with upstream.

Why Fedoraproject?

- No copyright assignment.
- Work closely with upstream.
- Core foundations: Freedom, Friends, Features, First

Outline

Outline

Features for desktop users

- GNOME 3.0/Shell

Features for desktop users

- GNOME 3.0/Shell
- Btrfs - With yum support (yum-plugin-fs-snapshot)

- GNOME 3.0/Shell
- Btrfs - With yum support (yum-plugin-fs-snapshot)
- Higher compression in live images with xz compression

- GNOME 3.0/Shell
- Btrfs - With yum support (yum-plugin-fs-snapshot)
- Higher compression in live images with xz compression
- Better power management

- GNOME 3.0/Shell
- Btrfs - With yum support (yum-plugin-fs-snapshot)
- Higher compression in live images with xz compression
- Better power management
- Libreoffice, KDE 4.6, Xfce 4.8

Outline

- Robotics studio

Features for developers

- Robotics studio
- Rails 3

Features for developers

- Robotics studio
- Rails 3
- Python 3.2

Features for developers

- Robotics studio
- Rails 3
- Python 3.2
- GCC 4.6, GDB 7.3

Outline

- systemd - init replacement and more

- systemd - init replacement and more
- Dynamic firewall with dbus-interface

Features for sysadmins

- systemd - init replacement and more
- Dynamic firewall with dbus-interface
- Consistent network device naming

Outline

- No poweroff/reboot option

- No poweroff/reboot option
- No minimize/maximize button

- No poweroff/reboot option
- No minimize/maximize button
- No taskbar, No desktop icons/files

- No poweroff/reboot option
- No minimize/maximize button
- No taskbar, No desktop icons/files

- No poweroff/reboot option
- No minimize/maximize button
- No taskbar, No desktop icons/files

Getting back poweroff/minimize button/desktop/taskbar

Surprises in Fedora 15

- No poweroff/reboot option
- No minimize/maximize button
- No taskbar, No desktop icons/files

Getting back poweroff/minimize button/desktop/taskbar

yum install gnome-shell-extensions*
